

Carrier Connectivity Solution Guide

Transforming the Landscape of Healthcare Delivery

Key Challenges of Communicating with Carriers Prior to EverythingBenefits

- 1 Communicating benefits enrollment info to carriers *manually* is **error-prone, time-consuming, and disruptive** to everyone.
- 2 Most carriers only allow groups with 100 or more to enroll using automated EDI tech. This **prevents groups with low enrollment in specific plans from using these technologies.**
- 3 Getting automated carrier connections **setup takes months.** Any issue resolution is slow and time-consuming.

What's Unique About Our Carrier Connectivity Solution?

EverythingBenefits' Carrier Connectivity solution completely eliminates the manual process of communicating highly sensitive benefits data and connects you to a network of over 600 carriers.

-  Supports providers with virtually every type of benefit
-  Works for any size groups or companies
-  Proactively & continuously monitors data for changes
-  Gets clients up and running in days or weeks versus months
-  Reduces carrier response time by 80-90%

TOP FEATURES

- 1 **Quick Setup:** Reduce the time it takes to set up a manual connection to just 8-14 weeks. With digital enrollment forms, it can be cut down to 2-3 weeks.
- 2 **Automated Delivery:** Automatically and securely deliver enrollment and benefits data to insurance carriers for open enrollments, new enrollments, terminations, or any other events.
- 3 **Expansive Carrier Network:** Connect to our network of over 600 carriers to communicate data related to health, dental, life or any other benefits.

"With this solution we have direct access to data and carriers that was missing with our old vendor."

Michele Danner
Benefits Manager at
Goodwill

Our Financial Connectivity sister solution allows our clients to deliver 401(k), 403(b), and other deduction information.

IT'S WHAT'S INSIDE THAT COUNTS

Whether your group has 10,000 or 50 employees on the plan, get up and running in days and enjoy real-time access to communication reports. Our support team is always monitoring files, so you'll be notified if your attention is needed.

- 1** EDIs are configured by the EverythingBenefits team to be delivered on the days and times the carriers will accept them
- 2** Each file can be set up to include the events and data the carriers require
- 3** Full transparency into which benefit plans are being exported to each carrier
- 4** In-depth tools allow users to review full files, previously sent data, and to compare multiple files at a time
